BOTH DISK SIZES INCLUDED

Certified VIRUS FREE

BERT'S DINOSAURS

A brilliant coloring program with the popular dinosaur theme will appeal to all ages but is also an excellent introduction to computing. Designed by educators it requires a minimum of assistance by adults. Children will love placing dinosaurs in different situations and then coloring them. They can even open a text window and write about their creations. Completely Mouse driven and very easy to use, this version also includes a VOICE!

Requirements: VGA/MOUSE. Also for best results we recommend running this program from a hard drive (approx 475K required)

Association of Shareware Professionals
Approved Vendor

All APTOS/RED DRAGON Software comes with the QUICKSTART Install Program and MENU.
